1895=Autumn Catalogue

Bulbs, Plants ^{and} Seeds.

ORDER early so as to secure choice bulbs from our own importation.

HOW WE FORWARD BULBS AND PLANTS.

All Bulbs ordered singly are mailed free at the price named, but by the dozen the postage is added as named in Catalogue.

PLANTS should be sent by *Express* whenever possible. Of course, in places where there is no *Express* office, plants have to be sent by mail.

REMITTANCES.—Remit by draft, postal money-order, registered letter or postal note.

ORDERS from unknown correspondents must be accompanied with the cash.

TO FLORISTS AND GARDENERS.

We will be pleased to make you special quotations on any Bulbs you may need, and invite you to call and inspect our stocks if convenient. If you cannot call, let us hear from you.

Chinese Sacred Lily.

JOSS FLOWER OR FLOWER OF THE GODS.

This is grown by Chinamen for decorating their Temples or Joss Houses on their New Year's day, which occurs in February. They can readily be brought into bloom by Christmas. It is very easily handled, and may be grown in moist soil or in pebbles and water. It is becoming very popular.

10 cents each; by mail 15 cents.

\$5 cents per dozen; by mail \$1.20.

Also Baskets at wholesale prices.

HOW TO CULTIVATE BULBS.

ANY good garden soil, well pulverized, is suitable, but good sandy loam is preferable. A dressing of fine bone meal will be found very beneficial. Plant the large bulbs about four inches below the surface, the smaller bulbs not so deep. The usual time for planting is in October or November, but any time during the winter will answer, if the surface only is frozen. After the bulbs are planted, if hard deep frosts set in, cover with a light litter that may be raked off in the Spring. The bulbs will then shoot up and flower without further trouble. If early Spring should prove dry, water well. The arrangement of the bulbs in the beds is much a matter of taste and situation. They may be planted in rows, in masses, in circles or half-circles. Each color by itself, or divided, or mixed. No matter how arranged they will always prove interesting and beautiful.

After they flower and die down the bulbs may be allowed to remain in the ground to flower the next season, or if beds are required for other plants, may be taken up, soaked in water for about 12 hours, then dried and laid away for replanting. Bulbs are so reasonable in price that it does not pay to keep the old ones, especially as the flowers of the new ones are far superior to the old.

CULTURE OF BULBS IN POTS OR BOXES.

Pots for single bulbs should be twice the diameter of the bulb. The same proportion of room should be observed when planting in boxes or in pots holding more than one bulb. The boxes or pots should have proper drainage, so that no water will lie in the bottom. The soil used should be good sandy loam, mixed with bone meal. After planting, place the boxes or pots in a dark cool place for three weeks, until the roots are well started, then gradually bring them to the full light.

TO GROW HYACINTHS IN GLASSES.

Fill the glass with water. Place the bulb in the glass with the bottom touching the water. Place the glass or glasses in a dark cool place for about three weeks, or until the roots are three or four inches in length, and the flower stem one inch high. After they are brought out and acclimated, the more sunlight they get the better.

As the water evaporates it must be renewed, and changed as often as it becomes discolored or impure. When the flower bud begins to swell, the water may be brought higher up on the bulb. The temperature should be as even as possible. A few drops of hartshorn in the water will help the bloom.

Hyacinths.

SELECTED FIRST SIZE FINE NAMED HYACINTHS.

(Add 20 cents per dozen for postage when to be sent by mail.)

These are selected first size bulbs and are not to be compared with the *cheap-named* Hyacinths that are offered by the trade. They are two distinct grades, and in this selection the bulbs are large, clean and healthy.

The single varieties are best adapted for glasses, and are more largely used for indoor culture than the double.

Mixed Hyacinths.

FOR FORCING OR OUTDOOR CULTURE.

These are carefully selected, well-ripened Bulbs, comprising different shades of the various colors that will produce fine blooms if properly treated; not to be confounded with the cheap mixtures sometimes offered for outdoor planting.

White Roman Hyacinths.

A charming class of Hyacinths, producing graceful white flowers, of great beauty and fragrance. This very valuable variety if planted early in September and gently forced, will bloom in November, or their flowering may be retarded till Christmas by keeping them in a cool place.

We advise the purchase of the largest sized Bulbs as the cheapest in the end.

The best effect is produced by planting four or five Bulbs in one medium sized pot.

	Per Doz.	Per Doz.	Per 100

SPECIAL PRICES FOR LARGE QUANTITIES.

Freeseias.

These are among the most beautiful of all Cape Bulbs, possessing a peculiar grace of form, and their fragrance is most delightful, one pot of five or six bulbs being sufficient to perfume a whole house. As cut flowers they are extremely valuable; the unexpanded blooms opening in water fill the air with the most delicate perfume, and their endurance is really remarkable. They force very easily, and can be had in flower at Christmas, and continue in succession until June.

Extra size, 20 cts. per dozen; \$1.00 per 100; by mail, \$1.25 per 100.

Tulips.

Add for postage on Tulips at the rate of 5 cents per dozen when ordered to be sent by mail.

We have given special attention to the selection of our Tulips, and our collection is unusually fine, embracing the choicest leading varieties. For early forcing the Duc van Thol and early single sorts are best. They should be started in September and treated the same as Hyacinths. Early in November they may be removed into heat. The greater part ought to be potted from the middle of September to the end of October. For outdoor planting they should be set 3 to 4 inches deep, and 4 to 6 inches apart, according to the size of the bulb. A few bulbs planted here and there produce but little effect, but when planted in masses, or in small groups, they become at once brilliant and grand, and surpass in variety of coloring and picturesque effect almost any other flower.

The letters A, B and C indicate earliness of blooming. Those marked A are earliest, B next, and then C. L stands for late.

BERMUDA EASTER LILY.

LILIUM CANDIUM.

THE BRIDAL LILY OF BERMUDA.

The old-fashioned pure white Garden Lily. It is as hardy as an oak, and always gives satisfaction. As it starts into growth very early in the fall, it should be ordered early, and for this reason it is best planted in August and September, when possible. It is also considerably used in some localities for forcing. It grows about 4 feet high, bearing large clusters of snowy white, medium-sized flowers. Selected bulbs, extra fine, 10 cts. each; 75 cts. per dozen. By mail, \$1.00 per dozen.

AURATUM.

THE GOLD-BANDED LILY OF JAPAN.

Immense white Flowers, each petal marked with a wide gold band, and spotted with maroon, very sweet fragrance and free blooming. It is considered by many the finest Lily in cultivation.

Lilies.**BERMUDA EASTER LILY.**

LILIUM HARRISI.

The *True Bermuda Easter Lily* is one of the grandest bulbs introduced in many years. They are easy of culture, early, flower quickly, and can be had in bloom for Christmas from bulbs planted as late as September.

They are, however, mostly grown for Easter Flowers, and, of course, will produce more flowers when given a longer time. They have become very popular, and deservedly so, as it comes quickly into bloom and produces pure white, gracefully formed and delightfully fragrant flowers.

One of the most charming of Spring flowering plants, bearing slender stems set with tiny bells which diffuse a delicious odor. They are largely used for forcing in winter and can be flowered in the house. To secure good results the Pips should be

LILY OF THE VALLEY.

Narcissus or Daffodils.

There are no hardy plants which have more points of merit than the Narcissus. Perfectly hardy in all latitudes, if planted in well-drained ground they multiply and increase in attraction each year. They are as easily forced as the Hyacinth, and a constant succession of flowers may be had from January to the middle of May. The flowers are among the most attractive of blooms, very lasting and of endless variety of form and coloring.

Grand Rapids.—Very rapid growth; crisp, tender, and of good quality. Pkt., 5 cts.; oz., 15 cts.

PARSLEY.

Dwarf Extra Curled.—The best for forcing, leaves tender, crimped and very curly, of a beautiful bright green color, and very ornamental. Oz., 10 cts.; $\frac{1}{4}$ lb., 20 cts.; lb., 65 cts.

RADISH.

Early Red Turnip.—Turnip shaped, skin red, for forcing. Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 20 cts.; lb., 60 cts.

White Tip Scarlet Turnip.—Red skin, fine flavor. Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 20 cts.; lb., 60 cts.

SPINACH.

Curled Savoy.—Leaves extra curled, large and thick. By far the best and most productive Spinach in cultivation. Our sales of this sort more than double annually. Pkt., 5 cts.; $\frac{1}{4}$ lb., 10 cts.; lb., 25 cts.

Long Standing.—Best for spring sowing; slow to seed. Pkt., 5 cts.; $\frac{1}{4}$ lb., 10 cts.; lb., 25 cts.

Pot-Grown Strawberry Plants.

(READY FROM JULY TO NOVEMBER 15.)

VARIETIES MARKED "**P**" SHOULD HAVE ANOTHER
PERFECT FLOWERING SORT PLANTED
NEAR THEM.

OUR STRAWBERRY PLANTS grown in pots are as much superior to ordinary layer plants as the improved cultivated sorts of Strawberries are superior to the ordinary wild berries. They can be shipped to any part of the United States or Canada and planted without any check, requiring no special care in transplanting, and will produce a full crop of the finest fruit next spring.

NOTE.—If plants are wanted by mail, add 10 cents per doz. and 75 cents per 100 to cover postage.

BIG 4—All Perfect Blossoms.

One of the best collections of Strawberries ever offered. Selected and advertised this year for the second time, and justly deserve the prominence given them; we have no better varieties of their class. They are all well thought of, and no one will be disappointed in them.

ENHANCE.—The king of large, late, dark Strawberries, and has no superior for canning. Ripens first fruit in mid-season, and continues picking until quite late. Fruit is large, firm, fine quality and of the most beautiful dark red color, which runs through to the center of the berry. Plant a strong grower and very productive; free from rust. Price, strong pot-grown plants, 50 cents per doz., \$3.00 per 100.

WOOLVERTON.—One of the very best berries on our list. The fruit is large, of beautiful shape, bright, attractive color and fine quality. Everybody likes the Woolverton! Plant is a strong, healthy grower, prolific bearer, and the blossoms produce an abundance of pollen, making it especially valuable for planting with other varieties. Price, strong pot-grown plants, 50 cents per dozen, \$3.00 per 100.

GOVERNOR HOARD.—If you want a berry of particularly fine appearance to serve with the hulls on for eating "out of hand," try the Governor Hoard. Berries large, roundish, conical, bright, glossy red, firm, and of fine flavor. Ripens quite early. Price, strong pot-grown plants, 50 cents per doz., \$3.00 per 100.

SAUNDERS.—Of Canadian origin; a hardy, luxuriant grower and heavy bearer. Fruit conical, slightly flattened, with a depression on both sides, which, together with the rich, glossy, deep red color, makes it very attractive. Flesh of berry red to the center. "The Saunders does well everywhere." Price, strong pot-grown plants, 50 cents per doz., \$3.00 per 100.

SPECIAL OFFER:

We will furnish 100 each of the **BIG 4** "Jr." for \$11.00, or 1000, our selection, for \$25.00. 6 each for \$1.00; 12 each for \$1.75; 25 each for \$3.00.

MARSHALL NEW.—Three thousand baskets of berries picked on one-third of an acre last year. The berries are of very large size, fourteen filling a basket. Color, very dark, crimson throughout; fine flavor and fine grain and a good keeper. \$1.00 per dozen; \$5.00 per 100.

Pot-Grown Strawberries.

NOTE.—IF PLANTS ARE WANTED BY MAIL, ADD 10 cts. PER DOZ. AND 75 cts. PER 100 FOR POSTAGE.

SELECT STANDARD SORTS

WORTHY OF SPECIAL MENTION.

NOTE.—In this list the varieties are generally well known, and we give only brief description, with time of ripening, etc. They are the cream of the standard older varieties, selected from a long list after discarding many worthless sorts.

POT-GROWN PLANTS, 50 CTS. PER DOZ.; \$3.00 PER 100; \$25.00 PER 1000. LAYER PLANTS AT LOW PRICES.

TENNESSEE. This new berry fruited with us last season and we feel free to recommend it. Very strong grower and produces heavy crops of finest fruit. Averages very large, bright crimson, firm and fine flavor. We hope all will try it. Doz., 50 cts.; 100, \$5.00.

EUREKA. (P.) Very late. Fruit large size, and one of the very best late varieties we have. A very strong grower, and exceedingly productive. Sometimes called "Eureka, the Beautiful," a term which is fitly applied.

CANDY. Ripens late; fruit large and fine.

PARKER EARLE. Satisfactory when grown on rich soil, Fruit medium to large. Recommended for garden culture, but rusts too much for ordinary planting.

MICHEL'S EARLY. Earliest of the earlys. Fruit medium size and fine quality. Plant a strong, vigorous grower, and free from rust. Largely planted an account of extreme earliness.

HAVERLAND. (P.) Ripens a few days after Michel's Early, but more productive and larger. Fruit long, resembling Lady-Finger; beautiful glossy red and fine quality. One of the leaders among berries, and hard to beat. We especially recommend this variety.

SHUSTER'S GEM. (P.) Ripens with Haverland. Fruit a beautiful crimson, and second only in quality to the Banquet. Remains good size to the end of the season. A great favorite.

BUBACH. (P.) Ripens second early. Fruit extra large and fine; very productive and profitable.

LOVETT'S EARLY. Ripens second early, and continues through season. Exceedingly productive, and has become very popular. Fruit averages good size; is bright red and of fine shape.

SHARPLESS. A standard old sort, well known and largely planted, both for table use and for market.

Six Grand New Berries. { We consider these six varieties the cream of the tested new sorts offered recently. There is no doubt that they all have solid merit.

GREENVILLE, ½ SIZE.

and excellent in quality. Ripens very early and continues in bearing a long time. Plant is a strong grower, perfectly healthy and free from rust; stands the dry weather and burning sun, and remains firm during the wettest season, as we found this year. Price, strong pot-grown plants, 60 cts. per doz., \$3.50 per 100.

PRINCESS. (P.) "Eighteen berries fill a quart!" This is a "princess" indeed, and well deserves the name. A small bed will produce a surprising amount of fine attractive fruit, and the best of fruit! Plant a strong, robust grower, hardy and healthy. Roots deep and stands drought well. Ripens midseason. Price, strong pot-grown plants, 60 cts. per doz., \$3.50 per 100.

LEADER. This new variety somewhat resembles Sharpless in growth of plant and shape of fruit, but is much earlier and far more productive; really an improvement over Sharpless in every way. Ripens early. Price, strong pot-grown plants, 60 cts. per doz., \$3.50 per 100.

LAYER PLANTS. Supplied in any quantities at low prices.

Blackberries.

WILSON Jr. The largest known variety, of fine appearance and ripens very early. Very productive and good quality. By its low, trailing habit of growth it is easily protected in winter and well adapted on that account to cold climates.

KITTATINY. A very popular sort for general planting, and still growing in popular favor, especially for family use. Very strong grower; berries large and fine flavor; exceedingly productive. Season extends from medium to very late.

LUCRETIA (Dewberry.) As early as Early Harvest and as large as Wilson. Shiny jet black, melting and delicious quality, devoid of core. Plant is entirely hardy, healthy, strong grower and very productive.

PRICE BY MAIL: 10 cts. each, 3 for 25 cts.; 12 for 75 cts.; price by express, \$2.50 per 100.

If wanted by mail, at rates per 100, add 40 cts. per 100 to cover postage.

Raspberries.

POSTAGE ON RASPBERRIES BY THE 100 SAME AS ON BLACKBERRIES.

BLACK PROGRESS (Pioneer.) The best very early jet black raspberry. Good quality, ripening with Souhegan, stronger grower and more prolific; very valuable market variety; extremely hardy. Price, mail, 10c. each; 3 for 25c.; 12 for 75c.; express, \$2.50 per 100.

GOLDEN QUEEN. The best yellow raspberry. Very large, exquisite beauty, very good quality, hardy and very productive; very strong grower and succeeds well in the South and Pacific Coast, as well as in colder climates. Price, mail, 10c. each; 3 for 25c.; 12 for 75c.; express, \$2.50 per 100.

PALMER, CUTHBERT, GREGG, OHIO AND SOUHEGAN, 10c. each; 3 for 25c.; 75c. per doz., by mail; \$2.00 per 100 by express.

Currants.

CHERRY. The most popular market sort. Bunch and berry very large, bright red; bush healthy, vigorous and productive. Price, mail or express, 10c. each; 3 for 25c.; 12 for \$1.00.

FAY'S PROLIFIC. The best red currant. Strong grower, wonderfully productive and comes to bearing young; fruit large, bright red, and good quality. Price, mail or express, 20c. each; 3 for 50c.; 12 for \$1.50.

WHITE GRAPE. The largest and best white currant. Bunch, large; berries large; handsome, translucent and excellent quality. Strong grower and very productive. Price, mail or express, 10c. each; 3 for 25c.; 12 for \$1.00.

THE BEST ENGLISH MILLTRACK Mushroom Spawn.

Mushrooms can be readily grown in cellars, stables, sheds or pits. Many are successfully grown on a shelf in an ordinary cellar and yield sufficient crop to compensate the grower for his effort.

The space under greenhouse benches or stagings will suit them exactly, using materials in same manner as described.

CULTIVATION.

The cultivation of the mushroom is a very simple matter and requires only ordinary intelligence and care. The materials needed are fresh horse manure, good soil and live spawn. The manure should not be too short, as it does not combine the necessary qualities. Long strawy litter, plentifully mixed with short manure, makes by far the best beds, as it does not heat too violently, decomposes slowly and retains its heat for a long period. Put in a heap and turn every three or four days to permit the escape of noxious gasses and prevent burning. When ready for use it should be as hot as can be borne comfortably by the hand, and should also be moist. Make the beds 3 feet wide at the base, 2½ feet high, and of any desired length. The manure, when in proper condition should be quickly handled to prevent the loss of heat and be beaten down to make the heap firm and compact, and cover with long litter; when the heat has decreased to 90°, the bed is ready to receive the spawn, which is done by raising the manure with the hand and inserting pieces of spawn 2 inches square, 9 inches apart each way. At the expiration of a few days the bed may be covered with soil to the depth of about two inches. If the soil is poor add a liberal quantity of bone meal.

Best English Spawn, 12 cents per lb. By mail 22 cents per lb., 10 lbs. for \$1.00. \$8.00 per hundred.

Poultry Supplies, Horse Powders, &c.

EGGS AT ALL SEASONS

BY USING

RUST'S EGG PRODUCER.

TRADE (THE HEN PERSUADER) MARK.

RUST'S EGG PRODUCER.—This has given our customers universal satisfaction. It supplies those substances which produce Eggs, growth and development. So moderate in price, it should be used winter and summer.

1 lb. package, 25 cts.; if to be sent by mail, add 16 cts. per lb. to prepay postage.
6 lb. box, \$1.00.

HAVEN'S ROUP PILLS.—Cures Roup, Catarrh, Cold, etc.

Box, 25 cts.

HAVEN'S CLIMAX

CONDITION POWDERS

FOR STOCK AND POULTRY.

NO POULTRY OR STOCK KEEPER CAN AFFORD TO DO WITHOUT THEM.

The only positive preventive and cure for Gapes and Poultry Cholera and a most excellent medicine for young Turkeys that have been exposed to the weather; also an excellent medicine for Horses, Cattle, Sheep and Hogs. All who have used Haven's Climax Condition Powders once will have it again.

1 lb. package, 25 cts. By mail, 40 cts.

PRATT'S FOOD.—Will make hens lay all the year, and is excellent for feeding to young chicks. For large fowls mix 1 ounce with the food for 15 or 20. For 15 or 20 chicks give one-half ounce every other day. 1½-lb pkg. 25c. 5-lb. pkg. 60c.

SHERIDAN'S CONDITION POWDER.—Well recommended by all leading poultry dealers.

4 oz. package, 20 cts. 2½ lb. can, \$1.00; mailing, 15 cts. per lb.

ERB'S HORSE AND CATTLE POWDERS.—For the cure of diseases that affect Horses, Cattle, Swine, Sheep and Fowls. Growing in popularity, and sales constantly increasing.

Package, 15 cts. 2 packages, 25 cts.

ANIMAL MEAL MAKES HENS LAY.—This is a true egg producing, flesh and bone forming food, and supplies just what laying hens and growing chicks require. It is not a medicine. It is fed with other foods.

5 lbs., 25 cts. 10 lbs., 40 cts. 25 lbs., 75 cts.
50 lbs., \$1.25. 100 lbs., \$2.25.

SUNFLOWER.—Highly recommended for Poultry as one of the best Egg Producing Foods known, keeping them in good condition.

Quart, 15 cts. Peck, 75 cts. Bushel, \$2.00.

CRUSHED OYSTER SHELLS.—This is the most important article for the poultry yard through the winter, and should be liberally supplied to the fowls. In summer, when left to run at large, they can find their own shell-making material, but when everything is frozen or covered with snow, they must be helped out if eggs are wanted.

5 lbs., 15 cts. 25 lb. bag, 40 cts. 100 lbs., \$1 00.

CRACKED BONE.—For Fowls. Made from white selected bone and reduced to about the fineness of cracked corn.

5 lbs., 25 cts. 10 lbs., 40 cts. 35 lbs., \$1.00.
Bag (167 lbs.), \$4.00.

MICA CRYSTAL GRIT.—To aid digestion, it is necessary to feed some gritty material. Mica Crystal supplies this want better than any other article known. We can supply this in two grades, fine for small chicks and birds, coarse for large fowls.

5 lbs., 15 cts. 10 lbs., 25 cts. 25 lbs., 40 cts.
100 lbs., \$1.00.

POULTRY NETTING, FOR ENCLOSING POULTRY YARDS.—The Wire we offer is all No. 19 double twist, 2-inch mesh thoroughly galvanized after weaving. Sold in bales of 150 running feet. For prices see our Illustrated Catalogue for 1896, ready in January.

POULTRY MARKERS, 25 cts.

FRENCH POULTRY KILLING KNIFE,
50 cts.

BONE MILLS.

WILSON'S BONE AND SHELL MILLS grind oyster or clam shells and dried bones, and is an excellent mill and largely used. Will also grind corn. Price, \$5.00.

WILSON'S DAISY GREEN BONE CUTTER is the best in the market. Simply constructed, very light running. With stand, \$18.00. Without stand, \$15.00.

MANN'S STANDARD BONE CUTTER, No. 2.
Price, \$18.50.

MANN'S SIMPLEX BONE CUTTER.
Price, \$10.00.

When we consider the almost innumerable uses to which the Combined Truck and Hand Cart can be applied, its handiness, and the immense amount of time and hard labor saved by its use, it is not a matter of surprise that it is steadily growing into favor. It is one of those articles that causes the user to wonder how he ever did without it, as it really becomes indispensable when once used.

The barrel is raised from the ground, carried to the place desired and instantly detached. all without handling. The weight being balanced over the axle, no lifting or down pressure is needed in transportation.

Other barrels for various purposes can be used as needed, extra trunnions being furnished, if desired, which can be readily attached to any oil or spirit barrel, thus increasing indefinitely the value of the truck.

We have wheels of 1½, 2½ and 4 inch tread, but always send truck with wheels 1½-inch tread, unless otherwise specified.

We also supply a box, with trunnions and spring catch, making a very superior dumping Hand Cart. Very stiff compact, handsome, and low in price. Furnished with or without barrel or box, as ordered. A first-class force pump' sprinkling attachment and leaf rack furnished as attachments. Just the things for washing windows and carriages and for spraying trees; also for sprinkling lawns; the leaf rack is a very useful article for moving leaves, etc., from the lawn.

Improved Barrel Watering Cart.

This cut represents our Barrel Cart, with "Gem" Brass Spray Pump. This is a convenient combination, and may be found useful in various ways; such as watering gardens, spraying fruit trees, etc.

The Barrel Cart and Pump may be ordered separately and arranged together to suit the purchaser. The Barrel Cart may be wheeled about when filled with water to supply sprinkling cans for watering flowers and vegetable gardens. When the running gear or truck is ordered without barrel, the trunnions may easily be fastened to any good water-tight barrel by any person with ordinary mechanical ability.

Wooden Hay Rakes, 25 cts.
Wooden Lawn Rakes, 50 "

GRIFFITH, TURNER & CO.'S EVERGREEN LAWN GRASS.

TWENTY POUNDS TO THE BUSHEL.

There is nothing prettier around a home than a well kept lawn; it brightens up the surroundings and adds loveliness to the landscape. In order to make or preserve a pretty lawn, Grass Seed should be liberally used, and for this purpose our Evergreen Lawn Grass is the most desirable. This is a first-class mixture prepared by ourselves and containing nothing but choice seeds—just the thing for tennis, croquet and ball grounds—remaining green and fresh during the hot summer months. Widely known and extensively used on the finest private and public grounds around Baltimore and elsewhere with the most satisfactory results. Pt., 15 cts.; qt., 25 cts.; peck, \$1.25; bushel, \$4.50.

PREPARATION AND CARE OF LAWNS.

The ground should be thoroughly drained and well enriched before sowing. Work the soil until well pulverized, and have the surface as level as possible, so that the grass may present an even appearance. After sowing, cover seed lightly and follow with roller. The best results are obtained by using plenty of seed—four bushels to the acre being about the right quantity. One quart is sufficient for 300 square feet. Let the grass obtain a good start before cutting, and then it should be trimmed with a lawn mower about every ten days. Old Lawns may be improved and renewed by the application of fertilizers, and seeding about half the quantity of seed required for new Lawns.

THE ARC LAWN SPRINKLER.

We claim this is the most perfect Sprinkler in existence. It is simple, will not wear out nor clog up, is well made and handsomely nickeled, is boxed singly with full directions how to use. Its merits are, without question, pre-eminently superior to any other.

Price, \$1.50
